

Cabin

Personal focus space

This single-person soundproof booth adopts a quick-assembly design. Boasting a warm natural look and robust structure, it is easy to assemble, disassembl e and transport. Lined with multi-layer acoustic materials, it combines sound absorption and insulation to cut noise leakage and reduce internal reverberation for a quiet focused space. Equipped with a glass door, it retains visibility and daylight while maintaining sound isolation. It creates a private acoustic zone for open offices, home study, live streaming, recording and conference calls. Practical, eco-friendly and modern-styled, it is perfect for solo focused work.

01 Custom Desk

The veneer desk provides ample space for you, making it convenient to place all your essentials.

02 Sustainable Sound Insulation

Constructed with multi-layer eco-friendly sound-absorbing and noise-reducing materials. Tested to reduce noise by 30 decibels.

03 Whiteboard Storage Rack

Equipped with a writing whiteboard to jot down your great ideas anytime.

04 Power Socket

1 USB port, 1 Type-C port and 1 high-power electrical outlet.

05 LED Light

The overhead LED light strip ensures your brilliant ideas never fade away.

06 Motion Sensor

Smart sensor automatically activates lights and fans to help save energy.

07 Leveling Feet

Adjustable feet compensate for uneven floors to keep the unit balanced.

08 Casters

Allows easy and convenient movement to your desired location.

09 Glass Door

10mm ultra-clear tempered transparent glass. Front surface features fingerprint-free water sanding, back with baking paint process, fitted with magnetic sealing strips.

10 Industrial-Grade Carpet

Made of 100% solution-dyed PET, offering superior wear resistance and tear strength.

11 Fresh Air System

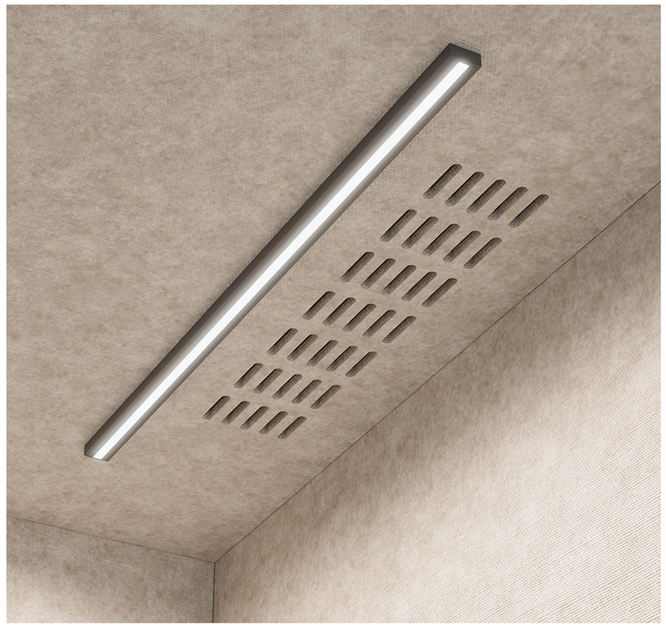

Maintains air circulation inside the pod for a comfortable and cool environment.

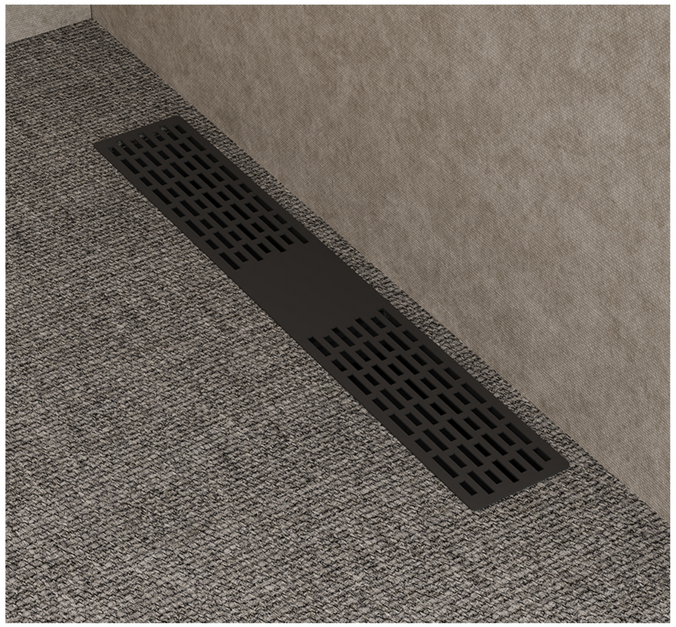

12 Power Plug

Fitted with standard 120V / 220V plugs and a 10-foot power cord at the back.Lets you freely set it up where you need it most, no hardwiring required.

Layer 1
E0 Grade, 16mm Double-sided Veneered Particle Board.

Layer 2 Filling
3mm Eco-friendly Damping Sound Insulation Pad (Upper Wall).

Layer 3 Filling
30mm E0 Grade Eco-friendly Sound Absorbing Cotton.

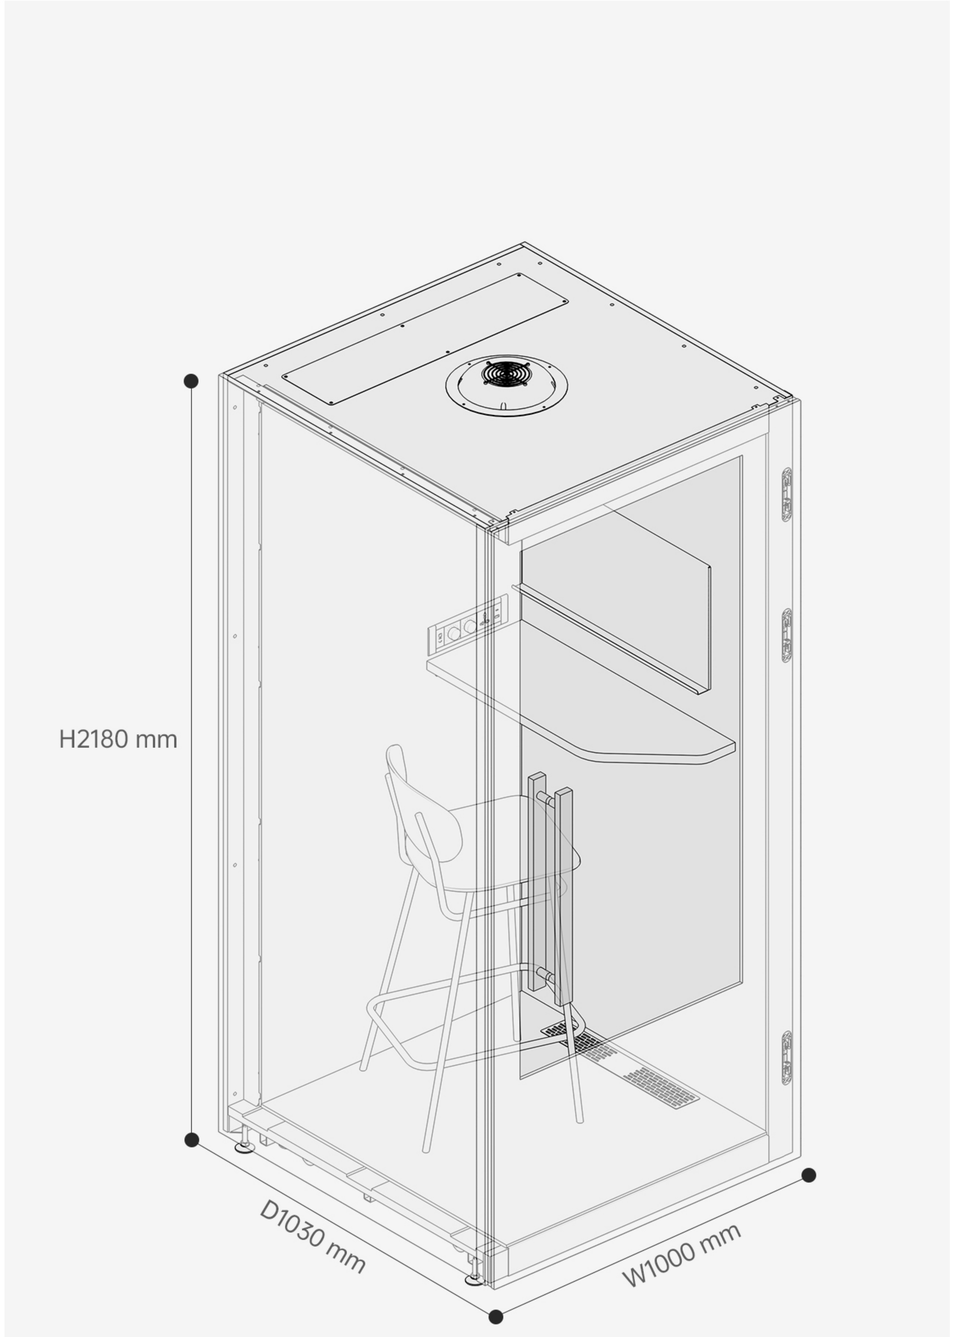

Carbon Steel Frame
Powder-coated surface.

Layer 2 Filling
9mm Eco-friendly Polyester Fiber Acoustic Panel (Lower Wall).

Layer 4 Filling
E0 Grade, 6mm Double-sided Veneered Slotted Diffusion Acoustic Panel.

Layer 5
9mm Eco-friendly Polyester Fiber Acoustic Panel.

External Dimensions
W1000xD1030xH2180 mm (with leveling feet)
W39.4"xD40.6"xH85.9"

Internal Dimensions
W850xD920xH1990 mm / W33.5"xD36.2"x78.4"

Weight
315 kg / 695 lbs

Frame
Glass door frame: 6063 aluminum alloy frame;
Wall frame: carbon steel frame.

Ceiling Structure (Inside to Outside)
9mm polyester fiber board + 6mm double-faced veneered MDF Partial 30mm sound-absorbing cotton + 3mm damping mat 16mm double-faced veneered particle board.

Floor Structure (Inside to Outside)
Wear-resistant carpet + 25mm multi-layer plywood + 9mm polyester fiber board + carbon steel frame base.

Glass Door
10mm ultra-clear tempered glass. Front: fingerprint-free water sanding finish; Rear: baking paint, magnetic sealing strips & solid beech handle.

Airflow
1 × Induction centrifugal fan (1500RPM);
Rated airflow: 320m³/h; Complete air exchange every minute.

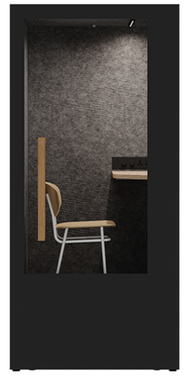

Wall Structure (Inside to Outside)
9mm polyester fiber board + 6mm slotted double-faced veneered MDF, 30mm sound-absorbing cotton, 3mm damping buffer mat (EU RoHS), 16mm double-faced veneered particle board; all E0 grade, formaldehyde ⩽0.050mg/m³.

Noise Reduction Performance
STC 30 dB (±5 dB)

Furniture
Desktop (800*300mm / 31.5*11.8 inches),
wall-mounted whiteboard storage rack.

Power Interface
Knob control panel with 2 knobs
(Air volume / Light CCT & brightness).
1 USB, 1 Type-C & 1 high-power outlet.

Power Consumption
55W under standard configuration in operation.
Input voltage available in 110V or 220V (specify when ordering).

Lighting
Motion-sensing 5-color temperature LED light.
Color temperature options: 3000K/3500K/4500K/5500K/6000K

Outer Packing Dimensions
W2320xD650xH1200 mm/ W91.3'*D25.6'*H47.3'
